Summary

Software Engineer with strong hands-on experience in building scalable cross-platform applications and modern web interfaces. Skilled in full-stack development and database management. Adaptable problem-solver with a strong focus on writing maintainable, modular and optimized code, eager to contribute to an agile, enterprise-level development team.

Education

Marwadi University
Computer Engineering – Diploma

Rajkot, Gujarat
Oct 2020 - Apr 2023

Marwadi University
Computer Engineering - B. Tech

Rajkot, Gujarat
Aug 2023 - Feb 2026

Experience

Brainy Beam Technologies | [MERN Stack Intern](#)

Ahmedabad, Gujarat | May 2025 – June 2025

- Improved frontend rendering performance by 15% by implementing efficient component-based architecture in React.
- Implemented secure authentication flows and robust data validation, ensuring secure data handling and user session management across the application.
- Optimized frontend performance by refactoring code into clean, modular structures, improving overall application responsiveness and load speeds.
- Collaborated effectively within an Agile workflow and ensuring the rapid delivery of software components.

Technical Skills

Programming Languages: JavaScript, Dart, HTML, CSS, SQL
Libraries / Frameworks: React, Flutter
Tools / Platforms: Git, GitHub, VS Code, Netlify
Databases: Firebase, MySQL

Projects

PrepDesk – Online Exam System

Flutter (Dart), Firebase

- Architected a structured, scalable application for online examinations, supporting multiple subjects and concurrent user sessions.
- Engineered a secure, login-based state management system featuring controlled question shuffling and dynamic data loading.
- Integrated Firebase backend services for real-time user data storage, secure authentication and live exam attempt tracking.
- Applied modular architecture principles, optimizing rendering performance and ensuring seamless, lag-free UI navigation during exam sessions.

HealthEase – Online Pharmacy Store

Flutter (Dart), Firebase

- Developed a comprehensive full-stack e-commerce mobile application facilitating medicine browsing, advanced searching and secure ordering.
- Implemented robust user authentication and secure session management utilizing Firebase Authentication.
- Designed and deployed a real-time cart and checkout pipeline, leveraging Cloud Firestore to optimize order tracking and reduce database fetch times.
- Built responsive UI layouts with complex screen transitions, focusing on application maintainability, clean code practices and intuitive user experience.

Certifications
